ABOUT GAMEBRIDGE

Our company was founded in 2007 as a trading company for poker equipment and accessories. But we have immediately realized that the quality of Casino and Poker Accessories does not match our business philosophy, thus in 2008 we have started manufacturing our own gaming equipment for poker clubs and casinos corresponding the highest standards of the industry.

Today GameBridge Casino Equipment is the leading company in gaming equipment manufacturing in Ukraine, as well as a supplier and a reliable partner of many gaming establishments worldwide.

We ship to Eastern and Western Europe, Middle East, as well as Africa and Latin America. We offer a wide range of Poker-, Roulette-, Black Jack-tables, displays, chairs, chips, playing cards, as well as layouts for gaming tables and all the necessary accessories.

GameBridge Casino Equipment has been exhibiting on many professional international exhibitions (ICE Totally Gaming Show London, BEGE Expo Sofia) for five years in a row, where we show our latest products and innovations.

Along with innovation, we consistently bring top quality products to our customers. We make sure our products meet the requirements and high standards of the gaming industry.

Our wide range of products presented in this catalogue will help you to create modern and unique casino or club you've been dreaming of.
